

Coffee County Schools
Response to Intervention/Implementation (RTI²)
Progress Monitoring Letter

Student: **Little Johnny**

Date: **2/21/2017**

Dear Parent,

A letter previously notified you that Little is receiving additional ELA interventions. During this intervention period, Little has been receiving small group, systematic intervention in ELA. Little has had their progress monitored every other week using assessments that are specific to the intervention being used. We would be happy to review the specific progress monitoring information with you if you choose. Please contact Little's teacher for this information.

Based on our progress measurements, we believe Little is:

	Making good progress and we plan to discontinue the additional intervention.
	Making good progress and we plan to decrease the amount of additional intervention time being provided.
	Making good progress and we plan to continue the intervention at this time.
X	Making some progress and we plan to continue the intervention at this time.
	Making limited progress and we plan to continue the intervention at this time.
	Making limited progress and we plan to consider changes in the intervention that we are providing.
	Making insufficient progress and we plan to change the intervention plan at this time. Further assessment and/or a parent meeting may be necessary.

As the school staff, we are pleased to have this opportunity to provide Little with this needed assistance. If you have additional questions or concerns, please contact Little's teacher.

Respectfully,

Ms. Smith
